

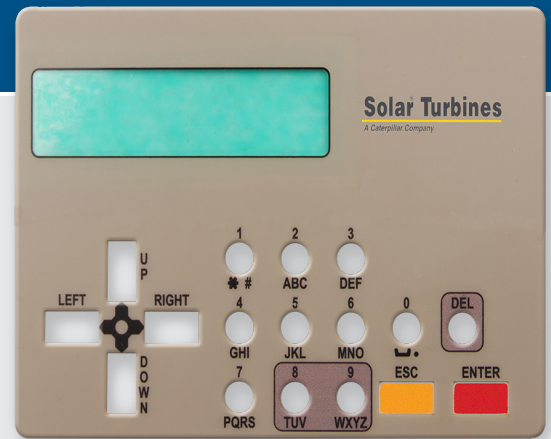

Graphic Overlays

Second-surface imaged

- Enhance your product appearance with crisp, precise and vibrant graphic overlays.
- Achieve required functionality and compliment your product with exactly the customized look you desire.
- Choose from numerous options including windows, cutouts, embossed keys, deadfront features and patterned adhesive.
- Economical prototyping and short-run production plus value priced production roll-outs.

FEATURES

- Embossed tactile keys with beveled rim or pillow configuration.
- Selective adhesive backing (patterned around windows & keys).
- Thru-holes for plugs, connectors and actuators.
- Clear or tinted windows for LED & LCD readouts - deadfront option for illuminated graphics.
- Velvet, matte or gloss finish and patterned texture for a combination of finishes.
- Rapid prototyping.
- RoHS, WEEE and REACH compliant.

GRAPHICS

- Graphics are printed on underside of material for enhanced durability.
- Performance-engineered and digitally printed for highest precision.
- Our rigorous Quality Management System (ISO 9001:2008) ensures the highest quality and precise adherence to your design specifications.

MATERIALS

- Lexan® Polycarbonate or Polyester material in thickness ranging from .010" to .030". Also available: a variety of special UV resistant and fire retardant materials.
- Custom sizes are precision cut with state of the art laser cutters or Class A hard tooling.
- Backed with premium 3M® brand adhesive to provide the optimum permanent bond.
