

Polycarbonate Nameplates

Second-surface imaged

- Identify your products with the attractive durability and long-term performance of rugged Lexan®.
- Enhance your product appearance with crisp, precise and vibrant graphics.
- Second surface printed; imaged on underside of transparent substrate for added protection from elements.

FEATURES

- Precise multicolor graphics created by digital imaging technology
- Permanent adhesion with 3M® acrylic adhesive backing.

Conforms to Industry Standards:

GG-P-455-B

MIL-DTL-19834C

MIL-DTL-15024F

RoHS, WEEE, REACH

as well as other applicable standards.

GRAPHICS

- Logos, graphics, and nomenclature are printed on underside of the translucent material.
- Sequential numbering (and barcoding) can be included.
- Images are printed on the underside of the material for extra durability.

MATERIALS

- Lexan® polycarbonate with smooth velvet finish. Also available in specialty flame-retardant and UV/Chemical resistant versions.
- Available in thickness ranging from .005" to .020".
- Produced in virtually any size or shape.
- A wide variety of premium 3M® brand adhesives is available to provide the optimum bond to your attachment surface.
